EDUCATION

ASTRAL INSTITUTE OF TECHNOLOGY AND RESEARCH INDORE
COMPUTER SCIENCE BACHELOR OF TECHNOLOGY
CGPA: 7.9

July 2019 - May 2023
Indore, India

GOVT. HIGHER SECONDARY SCHOOL
MATHEMATICS XII
Percentage: 85.80%

july 2017 - June 2018
Shahnagar,Panna

SKILLS

PROGRAMMING LANGUAGES LIBRARIES/Frameworks

C,C++ , Javascript, Object Oriented Programming Language
HTML, CSS, Bootstrap, ReactJs, NodeJs, ExpressJs, RESTful APIs, React-Bootstrap, Material UI, JWT, BcryptJS, Cors, Dotenv, Toaster, JSON, NPM, Compoments, API

TOOLS / PLATFORMS DATABASES

Git, Github, PostMan, Visual Studio Code, LeetCode, Netlify, Code Deploy
Mongodb, sql, Mysql

PROJECTS / OPEN-SOURCE

PERSONAL PORTFOLIO SITE | [Link](#)

ReactJS, NodeJS,MongoDB,ExpressJS, Bootstrap

- Developed a personal portfolio website with the using end-to-end multifunctional technologies.
- Implemented dynamic content updates and seamless user experience with ReactJS frameworks.
- Designed and maintained a scalable non-relational database for storing data and skills information.
- Created RESTful APIs using Express.js to interact with the backend database.
- Ensured responsive design and cross-browser compatibility for optimal user experience.
- Deployed the portfolio to Netlify Hosting platfrom for online accessibility.

E-COMMERCE MERN-STACK | [Link](#)

ReactJS, NodeJS, MongoDB, ExpressJS, Bootstrap

- Developed a comprehensive e-commerce application with environment using reusable, scalable, and efficient code, according to industry-level conventions, principles, and patterns.
- Implemented user authentication and signup, providing a secure login experience for customers.
- Designed and integrated an intuitive admin panel for efficient product management, allowing easy addition, modification, and removal of items.
- Engineered a dynamic product listing system with features such as price, rating, and detailed descriptions to enhance the shopping experience.
- Created a seamless checkout process, ensuring a smooth transaction flow for users.
- Written well-designed, testable & efficient code from scratch using, NodeJS and Created Fully secured Applications by Token Based Authentication using JWT & Bcryptjs.
- Designed and developed non-relational Database Schemas for supporting backend code using Mongoose ORM.

HONORS & AWARDS

- Leetcode 270+ Data Structure And Algorithm problems Solved and deployed 40+ github Repositories.
